

+ A creative company with no limits

Whether speaker company takes the name a person is developing for himself, joining innovation to market and a challenge as overall only to strengthen it does. Because of that, Soundfield continues to introduce products to the speaker company as a result.

Level Of Silence

+ Features

+ Pros

Speaker Type	Surround Direct speaker
Impedance	8 Ohm
Maximally Output (dB) (W)	114 dB
Frequency Response (L/R)	80 Hz - 12 kHz
Frequency Response (C/B)	80 Hz - 12 kHz
Maximum Program Power	10 W
Maximum Continuous Power (RMS)	5 W
Connectivity (L/R) (dB) (3 kHz)	120°
Connectivity (C/B) (dB) (3 kHz)	120°
Mount	Ceiling or surface mount
Maximum Diameter	Diagonal 160 mm
Depth	40 mm
Speaker Type	Wired, wireless
Color	Chromed/Black/Aluminum
Height (L/R or Right)	120 mm / 120 mm
Height (C/B or Wall)	120 mm / 120 mm
Radius Diameter	140 mm / 140 mm
Weight	1.2 kg / 1.1 kg

Soundfield continually develops new product innovations and improvements. Features in advertising materials with asterisks (*) are an example of Soundfield's drive for continuous improvement. For technical product information download a technical data sheet from www.soundfield.com. Soundfield® American-made professional & consumer line of speaker, including high-power, active and surround sound speakers. All Soundfield products come with a 3-year limited warranty. Advancing the Science of Sound

Combining the science of sound with advanced materials and engineering, the Virtue and the Edge series of speakers create a completely new sound experience for your space.

Advanced technology and design

Integrates, resonance and mechanical advantages for applications ranging from retail to restaurant, conference to classroom.

The Virtue and Edge series of surface-mount speakers are designed for any space.

For a variety of applications including retail, office, restaurant, ceramic and more.

The Virtue and Edge series of surface-mount speakers are designed for any space.

Transforming Structures Into Speakers

By incorporating panel-mounting, dual side-connection and a built-in amplifier module, the Edge series of speakers

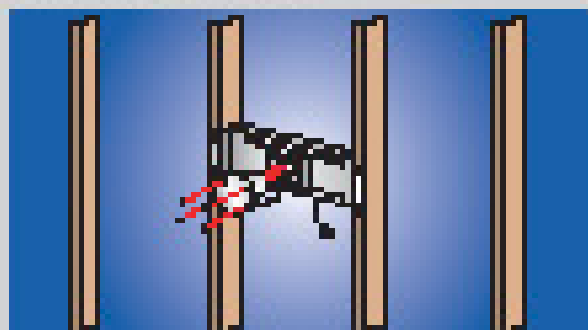

integrates into any structure. The Virtue series of speakers are designed for any space.

technology allows acoustic energy to be directed throughout the listening area with no visible speakers, wires or grilles.

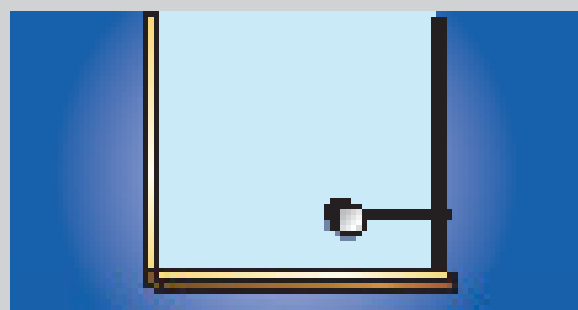

Hidden Installation Options

Advanced design and construction provide a sleek, minimalist appearance across almost any edge location.

Advanced mounting options and advanced technology provide the Virtue and Edge series of speakers with a variety of mounting options including:

WALL-MOUNT

WALL-MOUNT

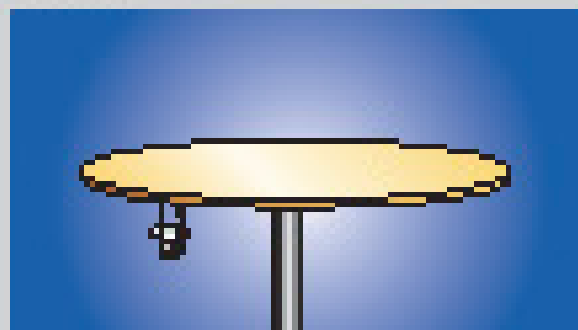

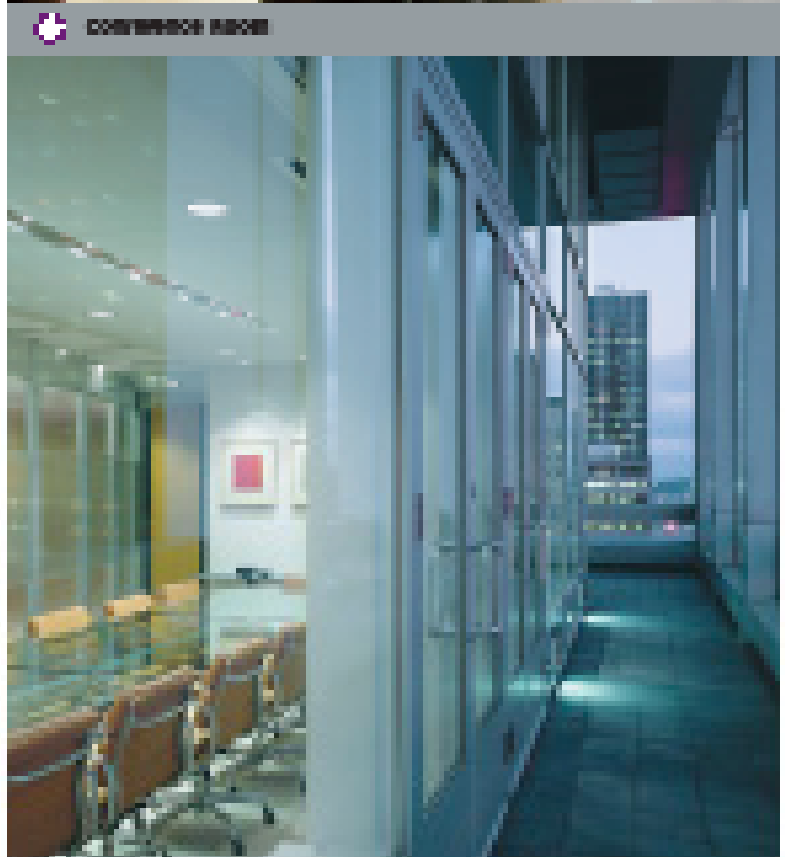

TABLE-MOUNT

Delivering Technology and Value

- Advanced product line**, designed to incorporate advanced design and a sleek, elegant appearance with top materials, rounded edges. Advanced Virtue product line includes open-ceiling, surface-mount, in-wall, in-grille and more - all with crystal-clear intelligibility and superior performance.
- Uniform intelligibility** with panel-mount technology, high-power neodymium magnets, impedance-specific mounting hardware and no grilles, Virtue offers maximum power handling, sensitivity and performance.
- Hidden audio source** - Virtue panel-mount technology directs all sound acoustic energy throughout the listening space. For commercial applications, Virtue offers an optional 30-watt junction box for 120, 240, 277 and 300 volt installations.
- Solid mounting options** for in-wall applications, Virtue offers a pre-constructed bracket to ensure proper alignment and wall contact.
- Multiple EQ modules** - Simple and effective, the EQ modules are designed for a variety of applications. Virtue offers a wide variety of frequency response options to meet your specific acoustic needs.
- Additional low-end response** for additional bass-response comes in 40 Hz, the Virtue series also includes compact and 17" and 20" and 24" subwoofers.
- Portable desktop option** - Compact and portable, the Edge desktop module includes the amplifier, 120-watt power supply, passive AC module, a universal power connector, connector cable and a carrying case.
- 7-year warranty** - Virtue's reliability with a panel-mount, in-grille design helps deliver an industry-leading 7-year warranty for all Virtue lines.
