SoundTube Updates HP Series With New Product

New HP129i loudspeaker provides high SPL with easy installation in open-ceiling environments.

PARK CITY, UT - SoundTube Entertainment, the leading manufacturer of high-performance commercial sound systems, has added the HP129i loudspeaker to its high performance HPi line. Designed for suspended installation in an open-ceiling environment such as gymnasiums or shopping malls, the HP 129i offers high sensitivity, high SPL capabilities and ultra-fast installation.

The HP129i is a 12" two-way hanging speaker in a 1 cubic foot enclosure. It includes a treated paper woofer and high sensitivity compression driver plus a 150 W transformer with tap switch. Audio connections are made with Euroblocks and installation is quickly accomplished with SoundTube's SpeedClamp™ connector and carabiner clips. The HP129i has a paintable finish (custom painting is available) and is sold in black or white standard finishes. A surface mounting option is also available.

The HP series products will be shown at SoundTube's InfoComm booth #N5851.

For additional information about any SoundTube product, contact the company at (800) 647-TUBE (8823), (435) 647-9555 or sales@soundtube.com.

SoundTube Entertainment, based in Park City, Utah, develops, manufactures and markets RSi open-ceiling, CMi in-ceiling, SMi surface-mount, XT outdoor, HPi high-power and FP sound-focusing speaker models. SoundTube products are installed in many of the world's best-known commercial operations. All SoundTube products come with a five-year limited warranty. SoundTube is a subsidiary of MSE Audio Group based in Overland Park, KS.
